Many names in the course of 100 years will be repeated over and over because we were a community of 1st, 2nd and 3rd generations, many of whom stayed in the oldest sections of the village of ARMOUR.

Sometimes names are repeated because most of our discovered material evidence was "hoarded" by but a few remaining families.

We are grateful to each and everyone who gave their treasures so generously, making this collected history possible. — B.H.
